A screenshot of the DIM ORIGINES login page. The page has a dark blue header with "Accueil" on the left and "Aide" and "Log in" on the right. The main content area is light blue and titled "Connexion". Below the title, there is a paragraph of text: "Si vous êtes un agent de l'observatoire de Paris, utilisez, s'il vous plaît, vos identifiants LDAP. Sinon, utilisez le compte d'accès que vous aurez créé au préalable, et remplissez le champ 'login' avec votre adresse électronique." Below this text is the DIM ORIGINES logo. To the right of the logo is a dark blue login form with two input fields: "Login ou email *" and "Mot de passe *". The "Mot de passe" field is filled with yellow dots and has an eye icon to its right. Below the input fields is a "Me connecter" button. At the bottom left of the form area, there are two links: "Vous n'avez pas de compte ? Créer un compte d'accès" and "J'ai oublié mon mot de passe". A red arrow points from the "Créer un compte d'accès" link towards the top left of the slide.

Operating Charter

Operating Charter for the DIM ORIGINES in the Paris Ile-de-France Region and the assessment bodies involved in its area of competence

Preamble

Given the role of the Ile-de-France Region in higher education and research, the Regional Council has labeled nine Domains of Major Interest (DIM) for a period of 5 years from 2022 to 2026 including the DIM ORIGINES;

The DIM is governed by a Scientific Interest Group type of governance comprising:

- a Steering Committee made up of directors of laboratories
- a Scientific Council made up of members of laboratories selected for their scientific quality and for their field of expertise by the laboratory directors.

The Scientific Council also relies on extra-regional experts for the evaluation of projects submitted to the DIM ORIGINES.

In order to establish good ethical practices, guarantee the transparency of the processes and ensure the proper management of public funds, the DIM ORIGINES has adopted this Operating Charter. This charter contains basic principles which must be respected by the Scientific Council, the experts called upon to intervene in the evaluation of scientific projects and the various organizations benefiting directly or indirectly from its support.
